

Job Description Library

Solara Renewables — maintained by Human Resources & Admin, reviewed annually or on role change

Senior Electrical Design Engineer

Department	R&D & Engineering
Grade / Band	M2
Reports To	Vice President & Head of R&D
Work Location	Corporate Office, Viman Nagar, Pune (with travel to Plant 1, Chakan)
Employment Type	Full-time, Permanent

Job Purpose

Own the electrical design of solar string inverter product lines from concept through to production release, ensuring designs meet performance, safety, cost, and regulatory requirements.

Key Responsibilities

- Lead schematic and PCB-level design for power electronics circuits (DC-DC converters, inverter topologies, control boards) for string inverters up to 110kW.
- Conduct simulation and stress analysis (thermal, EMI/EMC, efficiency) using tools such as PSIM, LTspice, and ANSYS.
- Prepare and maintain design documentation: schematics, BOMs, test protocols, and design verification reports.
- Coordinate with Quality Assurance and Manufacturing to resolve design-for-manufacturability (DFM) issues during pilot builds.
- Support certification efforts (BIS, CEA, IEC 62109) by preparing technical documentation and liaising with test labs.
- Mentor junior design engineers and review their design outputs.
- Investigate field failures referred by the Quality/Service team and drive root-cause analysis and corrective design changes.

Qualifications & Experience

- B.E./B.Tech in Electrical, Electronics, or Power Electronics Engineering; M.Tech preferred.
- 5-8 years of relevant experience in power electronics design, preferably in solar inverters, UPS, or industrial drives.
- Working knowledge of relevant IEC/BIS standards for grid-tied inverters is an advantage.

Skills & Competencies

- Strong grounding in power electronics topologies (buck-boost, H-bridge, three-phase inverters).
- Proficiency with circuit simulation tools (PSIM/LTspice) and mechanical/thermal simulation (ANSYS).
- PCB design experience (Altium Designer or equivalent).
- Structured problem-solving (8D/root-cause analysis) and clear technical documentation.

- Ability to collaborate across R&D, QA, Manufacturing, and Sales/Pre-sales teams.

Key Performance Indicators (KPIs)

- Design cycle time from concept to design-freeze against project plan.
- Number of field-failure root causes closed within SLA.
- First-pass yield of new designs at pilot build stage.
- On-time delivery of design documentation for certification submissions.

Production Supervisor

Department	Manufacturing & Production
Grade / Band	E3
Reports To	Manager - Production / VP, Manufacturing & Operations
Work Location	Plant 1, Chakan / Plant 2, Ranjangaon
Employment Type	Full-time, Permanent

Job Purpose

Supervise day-to-day shop-floor operations on the assigned production line, ensuring output, quality, and safety targets are met while leading a team of production operators.

Key Responsibilities

- Plan and allocate daily production tasks to operators based on the production schedule.
- Monitor line output against the daily production plan and escalate deviations promptly.
- Enforce Standard Operating Procedures (SOPs) and quality checkpoints at each stage of assembly.
- Conduct daily toolbox talks and ensure PPE compliance and adherence to EHS (Environment, Health & Safety) protocols, including Lockout/Tagout procedures.
- Maintain shift handover records, production logs, and downtime/rejection reports.
- Coordinate with Quality Assurance on in-process inspection and non-conformance disposition.
- Identify and escalate material shortages, machine breakdowns, or manpower gaps to the Production Manager.
- Support new-product introduction (NPI) pilot builds and provide shop-floor feedback to R&D on design-for-manufacturability.

Qualifications & Experience

- Diploma or B.E. in Electrical/Mechanical/Production Engineering.
- 4-7 years in a manufacturing/assembly environment, preferably electrical/electronics or renewable energy equipment.
- Prior team-lead or supervisory experience of 8-15 shop-floor personnel.

Skills & Competencies

- Working knowledge of Lean Manufacturing / 5S / Kaizen practices.
- Familiarity with EHS protocols relevant to an electrical assembly plant.
- Basic proficiency in MS Excel and the plant's ERP/MES system for production logging.
- Strong people-management and shift-coordination skills.

Key Performance Indicators (KPIs)

- Daily production plan adherence (%).
- First-pass quality yield on the assigned line.
- Safety incidents / near-misses on the line (target: zero lost-time incidents).

SOLARA RENEWABLES

Plot No. 42, MIDC Industrial Area, Chakan, Pune - 410501, Maharashtra, India | CIN: U40106PN2014PTC151234 | www.solararenewables.in

- Line downtime hours per month.

Territory Sales Manager - Pune

Department	Sales & Marketing
Grade / Band	M1
Reports To	Vice President, Sales & Marketing
Work Location	Sales Office, Bengaluru / field-based across Western Maharashtra territory
Employment Type	Full-time, Permanent

Job Purpose

Drive revenue growth for Solara's C&I (commercial & industrial) solar inverter and mounting-structure product lines within the assigned Western Maharashtra territory, managing the full sales cycle from lead generation to order closure.

Key Responsibilities

- Build and manage a pipeline of C&I solar EPC contractors, developers, and industrial end-customers within the territory.
- Conduct technical-commercial presentations and product demonstrations to prospective customers.
- Prepare techno-commercial proposals in coordination with the Pre-sales/Applications Engineering team.
- Negotiate commercial terms and close orders in line with the Company's pricing and credit policy.
- Maintain accurate pipeline and forecast data in the CRM (Zoho CRM) on a weekly basis.
- Coordinate with Supply Chain and Manufacturing on delivery commitments, and with Finance on payment collection.
- Represent the Company at industry events, exhibitions (e.g., RE-INVEST, Renewable Energy India Expo) and channel-partner meets.
- Gather and report competitive intelligence and customer feedback to Product Management.

Qualifications & Experience

- B.E./B.Tech (Electrical/Electronics preferred) or equivalent; MBA in Sales/Marketing is an advantage.
- 4-6 years of B2B sales experience in solar, power electronics, or industrial electrical equipment.
- Existing relationships with C&I solar EPCs/developers in Maharashtra are a strong advantage.

Skills & Competencies

- Consultative, solution-selling approach to technical B2B products.
- Strong negotiation and commercial-proposal drafting skills.
- CRM discipline (Zoho CRM or equivalent) and accurate sales forecasting.
- Willingness to travel extensively within the territory (60-70% field time).

Key Performance Indicators (KPIs)

- Quarterly order booking value against target.
- Sales pipeline coverage ratio (target: 3x of quota).
- Customer collection / DSO (days sales outstanding) within policy.

SOLARA RENEWABLES

Plot No. 42, MIDC Industrial Area, Chakan, Pune - 410501, Maharashtra, India | CIN: U40106PN2014PTC151234 | www.solararenewables.in

- New logo (first-time customer) acquisition per quarter.

HR Executive

Department	Human Resources & Admin
Grade / Band	E2
Reports To	Senior Manager - HR (Employee Relations & Compliance)
Work Location	Corporate Office, Viman Nagar, Pune
Employment Type	Full-time, Permanent

Job Purpose

Support core HR operations including onboarding, HRIS data management, statutory compliance coordination, and employee query resolution for the corporate office and plant locations.

Key Responsibilities

- Execute new-hire onboarding activities per the Onboarding Checklist, coordinating with IT, Admin, and Payroll.
- Maintain and update employee records in the HRIS, ensuring data accuracy for payroll and statutory filings.
- Assist in coordinating monthly attendance and leave reconciliation with department heads.
- Support statutory compliance activities: PF/ESIC filings, POSH Internal Committee administration, labour register maintenance.
- Respond to employee queries on policies, benefits, and HR processes; escalate complex issues appropriately.
- Assist in organizing engagement activities, training sessions, and town halls.
- Support the exit process: exit interviews, clearance coordination, and full-and-final settlement documentation.

Qualifications & Experience

- Graduate/Postgraduate in HR, Business Administration, or related field.
- 1-3 years of experience in an HR generalist or HR operations role, manufacturing-sector exposure preferred.

Skills & Competencies

- Working knowledge of Indian labour law fundamentals (PF, ESIC, Payment of Wages, POSH Act).
- Proficiency in MS Excel and HRIS tools.
- Strong attention to detail and discretion with confidential employee data.
- Good interpersonal and communication skills.

Key Performance Indicators (KPIs)

- Onboarding checklist completion within SLA for each new joiner.
- Statutory filing timeliness (zero late filings).
- Employee query turnaround time.
- Exit process documentation completed within 7 working days of last working day.

QA Engineer

Department	Quality Assurance
Grade / Band	E3
Reports To	Assistant Manager / Head of Quality Assurance
Work Location	Plant 1, Chakan
Employment Type	Full-time, Permanent

Job Purpose

Execute in-process and final inspection of inverters and mounting structures against defined quality standards, and support root-cause analysis of quality non-conformances.

Key Responsibilities

- Perform incoming quality inspection of critical components (IGBTs, capacitors, PCBs) against approved specifications.
- Conduct in-process quality checks at defined hold points on the assembly line.
- Execute final functional testing (load test, insulation resistance, efficiency test) per test protocols before dispatch.
- Log non-conformances in the QMS and support 8D/root-cause analysis with Production and R&D.
- Maintain calibration schedules for test and measurement equipment.
- Support internal audits against ISO 9001:2015 requirements.
- Prepare daily/weekly quality dashboards (first-pass yield, defect rate, customer complaints).

Qualifications & Experience

- Diploma/B.E. in Electrical or Electronics Engineering.
- 2-5 years in a quality assurance role within an electronics/electrical manufacturing environment.

Skills & Competencies

- Familiarity with ISO 9001:2015 QMS requirements.
- Working knowledge of root-cause analysis tools (5-Why, Fishbone, 8D).
- Comfort with test and measurement instruments (multimeters, insulation testers, load banks).
- Structured, detail-oriented documentation habits.

Key Performance Indicators (KPIs)

- First-pass yield rate on the assigned line.
- Customer field-complaint rate (PPM).
- Non-conformance closure time (root cause + corrective action).
- On-time completion of calibration schedule.

Accounts Executive

Department	Finance & Accounts
Grade / Band	E2
Reports To	Senior Accountant / CFO
Work Location	Corporate Office, Viman Nagar, Pune
Employment Type	Full-time, Permanent

Job Purpose

Support day-to-day accounting operations including accounts payable/receivable, GST compliance, and month-end closing activities.

Key Responsibilities

- Process vendor invoices, verify against purchase orders and GRNs, and process payments per approval matrix.
- Raise customer invoices and follow up on receivables in coordination with the Sales team.
- Prepare monthly GST returns (GSTR-1, GSTR-3B) and reconcile input tax credit.
- Assist in month-end closing: journal entries, accruals, and bank reconciliations.
- Maintain fixed asset register and support statutory and internal audits with documentation.
- Process employee travel and expense reimbursement claims.

Qualifications & Experience

- B.Com/M.Com; part-qualified CA/CMA is an advantage.
- 2-4 years of experience in a similar accounts role, manufacturing-sector exposure preferred.

Skills & Competencies

- Working knowledge of Tally/SAP (or similar ERP) and MS Excel.
- Understanding of GST, TDS, and basic Companies Act compliance requirements.
- Accuracy and attention to detail in transaction processing.

Key Performance Indicators (KPIs)

- Invoice processing turnaround time.
- GST return filing timeliness (zero late filings).
- Accounts receivable ageing within policy targets.
- Month-end closing completed within defined timeline (Working Day 5).
