2. Exit Interview Questionnaire

Q1. What is the primary reason for your resignation?

"I've accepted a role as Assistant Manager - Supply Chain at a larger EPC company, closer to home in Baner, with a step up in title and about a 22% CTC increase. It's a natural next step for me — I'd started feeling like I'd plateaued in scope here."

Q2. How would you rate your overall experience at Solara Renewables? (1-5)

4/5

Q3. What did you enjoy most about working here?

"The team, honestly. Supply Chain is a small function and Suresh gave me a lot of ownership early — I ran vendor negotiations independently from year 2 onward. Also liked that the plant folks and supply chain worked closely together, not siloed."

Q4. What could the Company have done better?

"Growth path within the function wasn't very clear — I only found out about the Assistant Manager opening elsewhere by chance. A more visible internal job posting process, or clearer conversation about what promotion to AM would need from me, might have changed my decision. Also, the ERP system (for PO tracking) is clunky and slows the team down."

Q5. How would you describe your relationship with your Reporting Manager?

"Good. Suresh is supportive and gave me real responsibility. If anything, I'd have liked more frequent formal check-ins on career progression specifically, not just work priorities."

Q6. Would you consider returning to Solara in the future, or recommend it to others?

"Yes to both. I'd genuinely recommend the team to a friend, especially for someone early in their supply chain career who wants real ownership fast."

Q7. Any additional comments?

“No complaints about pay or people — this is purely a career-progression and commute decision.”

3. HR Summary & Themes

Voluntary, growth-driven exit — not a red flag on manager relationship or compensation. Two actionable themes: (1) internal job posting visibility, flagged previously in the FY25-26 engagement survey open comments as well; (2) ERP/PO tooling friction in Supply Chain, to be shared with IT for the FY26-27 systems roadmap discussion. Recommend eligible for rehire.
