

STRICTLY CONFIDENTIAL — HR PERSONNEL FILE

Disciplinary Action Record

1. Employee Details

Employee Name	Rohan Deshpande	Employee ID	SOL-EMP-0176
Designation	Production Supervisor	Grade	E3
Department	Manufacturing & Production	Location	Plant 1, Chakan
Reporting Manager	Vikram Desai	Date of Joining	11 January 2021

2. Incident Summary

Date of Incident	14-Aug-2026
Location	Plant 1, Chakan — Line 2 Assembly Area
Category of Misconduct	Major — Non-compliance with mandatory safety procedure (Lockout/Tagout)
Reported By	Shift Engineer, Line 2 (witnessed and escalated same day)

Description: During a routine EHS floor walk, the Shift Engineer observed Mr. Deshpande directing a line operator to clear a jam on the automated crimping station without following the Lockout/Tagout (LOTO) procedure — the machine's power isolation switch had not been locked out, and no LOTO tag was affixed, in direct violation of the EHS Policy (Employee Handbook, Section 7.1) and the Plant 1 LOTO SOP (Doc. No. SOL-EHS-SOP-004). No injury resulted. This is Mr. Deshpande's second documented safety-procedure lapse in the last 12 months; the first (a PPE non-compliance instance on 03-Feb-2026) resulted in a verbal counselling, documented in his file.

3. Prior Disciplinary History

Date	Issue	Action Taken
03-Feb-2026	PPE non-compliance (safety glasses not worn in designated zone)	Verbal counselling by Shift Engineer, documented in file, no formal warning issued

4. Show-Cause Notice

A show-cause notice was issued to Mr. Deshpande on 18-Aug-2026, requiring a written explanation within 3 working days as to why disciplinary action should not be taken for the LOTO procedure violation described above, given the prior documented safety lapse.

Employee's Written Response (received 20-Aug-2026): "The crimping station jam was causing a backlog and I wanted to clear it quickly before the shift-end count. I know I should have locked out the machine first — it was a lapse in judgement under time pressure, not something I'd defend. I take full responsibility and will make sure this doesn't happen again, whatever the schedule pressure."

5. Inquiry

An inquiry was conducted on 22-Aug-2026 by a panel comprising Vikram Desai (VP, Manufacturing & Operations), Karthik Subramaniam (Sr. Manager - HR, ER & Compliance), and the Plant 1 EHS Officer. Mr.

Deshpande was given the opportunity to be heard and was accompanied by a colleague of his choosing (per the Handbook's disciplinary process, Section 13.2). The line operator involved was interviewed separately and confirmed the account above; no equipment damage or injury occurred.

Findings: The panel found the violation established and considered it a genuine, serious lapse rather than a one-off misunderstanding, given the prior PPE incident. Mitigating factors noted: prompt and complete acknowledgement of fault, 5+ years of otherwise clean record, no harm resulted, and cooperation throughout the process.

6. Decision & Action Taken

Action	Final Written Warning + Mandatory LOTO Refresher Training
Effective Date	28-Aug-2026
Validity / Review	Warning remains active on file for 12 months. Any further safety-procedure violation within this period will be treated as grounds for further action up to and including termination, per Handbook Section 13.
Additional Conditions	Mandatory re-certification on LOTO procedure within 15 days (by 12-Sep-2026); supervised sign-off required from EHS before independently authorising any machine-clearing task for 90 days.
Approved By	Vikram Desai (VP, Manufacturing & Operations); Karthik Subramaniam (Sr. Manager - HR)

7. Employee Acknowledgement

I acknowledge that I have received and understood this Disciplinary Action Record and the final written warning described above. I understand that this record will be retained in my personnel file and that a further safety-procedure violation within the validity period may result in further disciplinary action, up to and including termination of employment.
